LOCAL LUMBER SUPPLIER ANNOUNCES NEW MANAGEMENT HIRES

(Fletcher, NC - January 23, 2019) – Jennings Builders Supply & Hardware is pleased to welcome two new members to its management team in 2019. Jessica McGraw joins Jennings in the role of General Manager of the company’s Fletcher location, and J.P. Griffith as Sales Manager serving all four Jennings locations.

General Manager Jessica McGraw brings a wealth of experience in the building materials industry, most recently with West Coast-based Meeks Lumber Company where she managed the company’s Chico, CA branch. Additionally, McGraw managed millwork sales, product programs, and vendor relations in various positions throughout her 17-year career with the company.

In her new role with Jennings, McGraw will focus on enhanced contractor relationships and sales, while overseeing daily operations for Jennings’ Fletcher store – which opened in 2016.

Also joining the Jennings management team is J.P. Griffith. Prior to his current role, Griffith served as a Regional Vice President with 84 Lumber Company and District Manager for Carter Lumber Company handling all store locations south of Ohio. His efforts with Jennings will center on engaging the company’s sales team at all four locations.

Griffith shared his optimism for the year ahead by stating, “I am really looking forward to working with all associates involved with sales at JBS to garner more market share in all four of our respective markets. With our exceptional professionalism and customer service I feel we can become the prominent Pro-Dealer in Western North Carolina.”

Jennings’ Chief Operations Officer, Glenn Hoy, introduced these two staff members in early January, adding “We are building on the success of our team with the addition of Jessica and J.P. who have both distinguished themselves as leaders in our industry. It is my hope that their combined experience will help us kickstart a year of growth and improved efficiency in our company’s day-to-day processes.”

Established in 1984, Jennings Builders Supply & Hardware is a locally owned lumberyard and design center with four locations (Brevard, Cashiers, Fletcher, Franklin) in western North Carolina. We provide services, products, and solutions for new construction and remodeling projects. Our design centers are open to the public.
